## Triumph Gadgets & News

*André, from one of the TR lists ... not a bad tip ... new high tech approach to old magnet :-)  
Cheers, Mike*

*Checking for Bondo - Second Chance Garage*

*One of the most frustrating things restorers have to face is the “surprise” hidden under a fresh coat of paint. You go out looking for a reasonably rust-free project car and the seller tells you that only thin films of body filler have been spread (over properly welded patches, of course.)*

*You buy the car, take it home and strip away all the paint, only to find old rust areas that were improperly repaired and a thick layer of body filler hiding everything. That means you will have to repair it correctly and it also means you paid too much for the car.*

*Next time you go out looking, leave that magnet home. Magnets don't really tell you there's a thick layer of filler unless there's no metal behind it. Instead, grab that Stud Sensor out of the toolbox. Stud Sensors are densitometers. They detect changes in density of materials, so if you slide one over a bad Bondo job its little lights will tell you there's something amiss. You might still want the car, but at least you won't pay too much.*

*There is a Classic Air Rallye at Rockcliffe this weekend, on Saturday and Sunday.*

*Ben Loiselle is the organizer and he is hoping to have some vintage/classic vehicles come to the show to mingle on the infield with the aircraft.*

*There will be an article in Friday's Driving Section with a photo of a 1932 de Havilland Fox Moth and a couple of Franklins from the late-20s.*

*The event is at Rockcliffe/Aviation Museum, Sat and Sun, Aug 25 and 26, 9 to 5. Admission is free for people who bring a special car.*

*Up to 70 vintage aircraft and warbirds are expected over the two days.*

*If you'd like more information, please contact  
Ben Loiselle at 613 829-2203.*

Hi all,

*this is to confirm that the British invasion, Drive 'n' Dine is indeed going ahead on Tuesday, August 28th, as mentioned in the August Jottings.*

*Anybody who wants to join this multi-marque fun evening simply has to turn up between 5:30 and the time we leave for dinner, around 7. The show and rendezvous is at the parking lot of Hazeldean Mall, at the junction of Eagleson and Robertson Roads in Kanata, about 2 km south of the 417. Around 7-7:15 we will leave for a short 20-30 minute scenic drive via a route being organized by Don Leblanc of the Triumph Club to dinner at the Cheshire Cat - where we have reserved the upstairs room with the option of switching to the patio if the weather is hot.*

*The last two of these have been great fun and a lot of new friendships and linkages get made.*

*If you are going please ping Don an e-mail if you can at [dleblanc@businessaccelerators.ca](mailto:dleblanc@businessaccelerators.ca) This is just so he can give the restaurant an approximate estimate of participants.*

Cheers, AL

## ***"British Invasion" Cruise Night, Drive and Dine - Tuesday, August 28th, 5:30 - 9 pm***

*LOCATION: Hazeldean Mall on Eagleson Road*

1977 Triumph TR8 PRE - PRODUCTION Coupe with factory cloth moon-roof, V8 and Automatic Transmission  
Car from California (originally delivered San Francisco) and has mostly original paint and zero rust.

Paint is 30 years old and is showing its age with some cracking and a few touch-ups over the years.

White exterior with black/green check seats and door panels, new black carpet.

BMHIT production certification document which verifies that the car is a 1977 TR8 built in August 1977

Car drives very smoothly with lots of "GO" and all electrical systems work great . Could possibly include the personalized Ontario license plates "PREPROD8".

Detailed pictures are here: <<http://s173.photobucket.com/albums/w48/ACN1081/>>

Selling for \$7500 Canadian Car is located in Ottawa, Ontario, Canada.

Forsale automatic 1985 charcoal Jag has the original engine and transmission and is originally from the States. It has about 76,000 US miles and has been with the current owner since February 2000.

The car has been tuned up (plugs, plugwires, distributor cap, rotor). It has recently had the coil and the main component in the ignition module replaced along with the cooling fan. The main relay, fuel pump relay, and window lift relay were replaced in the past couple of years.

It is in very good shape, but not perfect. The paint is original, with only a couple of dents and scratches.

Everything works, with the exception of the cassette part of the stereo system, which tends to eat tapes.

The current tires will need to be replaced sometime soon.

Passed air-test and safety -- asking \$10,000 (or best offer).
