

# OVTC Christmas Recipe

## TR8 Cookie Cutter

### **Paul MacDonald**

I made the cookie cutter out of a brass one that I bought. I got one that was big enough and had very few bends already in it, so that I didn't have to straighten out unnecessary ones. Just drew out a shape and bent it with a couple of pliers. The cookies were made out of shortbread, but any cookie material should work like gingerbread. If my memory is correct I brought them to an OVTC Christmas party or winter gathering.
